AYAN KOLEY

Engineer + UX/UI Designer & Tech Lover

I am at a point of my career where I want to be surrounded by a team that I can grow with. And thus, hoping for an opportunity as a way to contribute to an exciting and forward-thinking company.

EXPERIENCE

Software Engineer | Orientallabs Retail Service Pvt. Ltd. (Labkafe) Chinar Park, Kolkata 05/2021 – Present

Primary Roles

- Lead Front-end Developer.
- Design and Build UI & UX Prototypes / Wireframes
- Develop & Manage Intra-organization Applications

Other Roles

- Checking and Building Backend (PHP & Laravel) • Helping Mobile Application Development (Flutter)
- Testing & Debugging

Freelancer | Self Employment

03/2020 - Present

I had been a freelancer mainly aiming to learn some new and popular industry skills.
Worked for small business for companies like MaksCube, Infinity Global Technologies, Optigoo etc.
Build many landing pages for Travel Agency, Digital Agency, Hospital Management System, Wedding Planner Business, eCommerce Websites etc.

Some Own and college Projects

- Todo list / Save list [React, localstorage]
  (Website that stores my lists locally)

- Portfolio (React, Google Sheets)

- Job search extension
  (Just a chrome extension that highlight the words I like to see)

- A complete website for college professors [React, Golang] (working)

- React Native application for making football line-up (working)

- SQL Injection [Python, SQL, Burpsuite, Acunetix]

- Chatbot / Voicebot [both with Python and JavaScript]
  (a chatbot accessible with voice to help common people with banking)

- Management System [Human Resource Management (Gambus), Crime Management (Java)]

- Occupancy Detector [Python]
